## Experience

### **Marine Superintendent**

Holt Logistics

Nov 2017 - Feb 2020 (2 years 4 months)

Successfully managed and worked with union personnel to improve and maintain productivity standards during on going dock construction.

Coordinated with all departments and customers on a daily basis while overseeing vessel operations in a real time setting.

Successfully completed CPR/AED certifications, Homeland Security Active shooter training, and maintained the highest level of safety standards on the terminal. Worked with proprietary software for vessel planning and daily operations.

### **Marine Superintendent II**

Ports America

Jun 2014 - Oct 2017 (3 years 5 months)

Successfully managed union personnel while also overseeing daily operations. Coordinated vessel operations in real time, while also implementing innovative processes to improve production and eliminate redundancies, as well as ensuring safety standards were met for all vessel employees without loss of productivity.

Successfully completed CPR/AED training as well as maintained hazmat training certs. Worked with proprietary software for vessel operations and planning. Assisted with the creation of Standard Operating Procedures and training new Superintendents.
